Subject: RE: License Procedure for Master Plumbers

The Village Board decided a couple of years ago due to an issue that could not be resolved to do away with the Plumbers License. As of now it is not required to be licensed in the Village of Endicott.

Subject: License Procedure for Master Plumbers

Mr. Griswold:

The City of Binghamton Board of Plumbing Examiners has enquired about the current procedure for licensing Master Plumbers, in the Village of Endicott.

We understand that the reciprocity agreement between the City of Binghamton, Village of Johnson City and Village of Endicott is still legally valid; however, we are not clear about how that agreement is being executed by the respective agencies.

Relatively recently, the Binghamton and Johnson City Boards agreed to utilize the services of a professional testing firm, Prometrics, for test design and administration purposes. To date, that exam was taken by a number of applicants and has proven to be a positive step.

As ever, duly licensed Plumbers may use licensing from their home community to obtain a license in an affiliate community that is party to the reciprocity agreement.

We welcome your feedback and any information you may want to share. We also graciously invite you to attend the next scheduled meeting (date pending) of the Joint Board.

Thank you.

Thomas F Costello, Supervisor
Board of Plumbing Examiners
